WOMAN IS HELD ON MURDER CHARGE

Sent to Jail to Await Grand Jury Investigation.

OTHER DEFENDANTS SET FREE

Judge Roan Says There Is Not Yet Sufficient Evidence to Convict Mrs. Stamper, But Enough to Warrant Further Investigation.

Atlanta, Jan. 2.—After a thorough investigation of the evidence against Mrs. Willie Stamper, R. A. Jordan, Mrs. Bessie Garey and Miss Addie Goss, held by order of the coroner's jury for investigation as to the murder of John Dodgen, Judge Roan on Monday ordered Mrs. Stamper remanded to jail pending an investigation by the grand jury, while the three other defendants were released.

The defendants in the case have been under arrest since the morning of Dec. 16, when Dodgen was found dead on the rear porch of Mrs. Stamper's home on Marietta street with a bullet through his head. The hearing before Judge Roan was the result of an application for commitment trial filed by attorneys for the defendant last week.

In ordering Mrs. Stamper held, the judge said:

"I am inclined to the opinion that this is a case for the investigation of the grand jury. There is a dead man in this affair and it should be probed to the bottom. The fact that the defendant is being held, however, should not prejudice the case against her, for it requires much more evidence to secure a conviction by a jury than it does to secure an order to be held for investigation. In the former case all doubt should be removed."

The question of the bloody garments found in the house after the murder and the blood spots on the floor was traced to another source, and from the evidence adduced it is not believed that they have any connection with the matter.

The evidence, which consumed practically the entire morning in the hearing, differed little from that at the coroner's inquest, the only material point of difference being about the number of pistol shots fired on the night Dodgen was killed. Mrs. Bessie Garey and Miss Addie Goss testified that there were two pistol shots fired and that Mrs. Stamper fired them both. At the coroners' inquest the witnesses testified that only one shot was fired.

When asked by Solicitor Hill why she changed her mind as to the number of shots and if she had been threatened if she did change, Mrs. Garey replied:

"Mrs. Stamper told us she wanted us all to swear for her and said she would give us trouble if we did not. She said if we swore there was more than one shot it might make it harder on her."

"How did she say she would 'make it hard for you?" inquired Solicitor Hill.

"She did not say," the witness replied.

Mrs. Garey, who was the first witness on the stand, stated that she went to the home of Mrs. Stamper on Saturday night of the killing for the purpose of spending the night with her, and that about 1 o'clock they heard a noise as if some one was trying to force his way into the door opening on the back porch. Mrs. Stamper asked who it was and, receiving no reply, declared she would shoot unless the party or parties disclosed their identity. According to the witness, the knocking continued, and Mrs. Stamper fired through the door. Then she walked to the door and placing the weapon in a hole, fired again. No effort was made to open the door of the house as the inmates feared that robbers were on the outside.

J. A. Dodgen, father of the murdered man, told of visiting the scene of his son's death, and of taking measurements to see how the wound

stated that the only position which his son could have assumed in order to have been struck in the back of the head was to have mounted a sill in front of the door and stood very close to the door with his back against it. Otherwise had he been standing on the floor of the porch, the bullet would have passed over his head. He testified, further, that on the Saturday night in question his son had on his person $16.75, which was missing when his body was found.

SMALL BOYS BLOWN HIGH.

Accident at the New Year Celebration in Savannah, Ga.

Savannah, Ga., Jan. 2.—While a party, consisting of the young son of Fire Chief J. E. Maguire, two sons of Richard Cooley, and a son of Henry Boden, and two small negro boys, were engaged at midnight in the celebration of the birth of the new year, through the agency of a small cannon, a spark flew into a can of powder from which they were securing their ammunition.

Small boys were blown in every direction. When they emerged from the smoke they were all more or less injured. The results may prove serious for two or three, who were reported from the drugstore, to which they were all taken by the police that hurried to the scene, as being in some danger of permanent afflictions from the severe burns they received.

Hours of Workmen Too Long.

Cleveland, O., Jan. 2.—Secretary Goldsmith, of the Ohio Federation of Labor, has announced that arrangements were being made to hold in this city a meeting of representatives of the blast furnace and coke workers employed in the mills of the Mahoning and Shenango valleys, at which time demands will be formulated for an eight-hour work day. The men are now working 12 hours a day. They made a demand for a shorter day four years ago, but finally compromised on a 10 per cent increase in wages, with the same hours as before. According to Secretary Goldsmith, the sentiment among the men strongly favors a strike unless a shorter working day is granted.

Attempt to Assassinate Woman.

Houston, Tex., Jan. 2.—A supposed attempt to assassinate Mrs. T. H. McGregor, the wife of Representative-elect McGregor, and the announcement that members of the family of F. Charles Hume had been poisoned, has led many Houston householders to discharge their negro servants. A negro man, who had been a servant in the McGregor home, is under arrest, charged with shooting into the dining room of the McGregor home. The bullet narrowly missed Mrs. McGregor. The shooting followed a rebuke to the negro's wife, who was employed as cook for the McGregors. The police are now investigating the alleged poisoning of the Hume family.

Cut His Wife's Throat.

Mt. Carmel, Pa., Jan. 2.—William Whittager murdered his wife by cutting her throat with a razor in the presence of his own mother and that of his victim. The two mothers and wife were conferring in the home of the wife's parents when Whittager entered the parlor, and, after addressing his wife, drew the razor across her throat from ear to ear. Whittager has been arrested. Three weeks ago the couple quarreled and the wife returned to her father's home, alleging that her husband treated her cruelly.

Lumber Falls on Street Car.

New Orleans, La., Jan. 2.—Two heavy timber piles crushed the side of a Tulane street car, killing William Grant and slightly injuring half a dozen passengers. The piles were loaded on a wagon with which the car collided on a dark street. The motorman and wagon driver were arrested and placed in jail.

A Wife's Revenge.

Sandusky, O., Jan. 2.—Learning that a girl to whom, it is alleged, he had been paying attention, gave him a watch for a Christmas present, his wife caused the arrest of William J. Burmeister on a charge of non-support. The couple live apart. They

RAIL HORROR STILL GROWS IN MAGNITUDE

52 Dead at Washington and About 60 Injured.

MORGUE SCENES HEARTRENDING

Investigation Seems to Fix the Responsibility on the Engineer Who Disregarded Danger Signal—Engineer Is Under Arrest.

Washington, D. C., Jan. 2.—The Baltimore and Ohio wreck at Terracotta, grows in magnitude as the hours pass.

The most conservative estimate on the dead is 52, with three scores of injured at the hospitals or at their homes, suffering from wounds and fractures sustained in the rear-end collision, which completely demolished the two day coaches and the smoker attached to the local Frederick, Md., train No. 66. Several of the most seriously injured are expected to die, and the death list may yet reach sixty or more.

Heart-rending and pitiful were the scenes at the city morgue, where hundreds of persons flocked to assist the police in the identification of the dead. Women, girls and even men with iron nerves, sobbed aloud and fainted as their relatives or friends were found among the corpses strewn about the floor.

Officials of the Baltimore and Ohio railroad are conducting an investigation of the wreck in Baltimore for the purpose of placing the responsibility for the disaster.

General Superintendent Toll exonerated Milton V. Phillips, the operator at the Takoma block station, the last signal station that the equipment train passed before crashing into the passenger train at Terracotta. The superintendent declared that Phillips was obeying instructions when he went home at 6:30 o'clock, leaving the double green signal burning. While making no positive charge, Superintendent Todd intimtaed that the burden of the blame would fall upon the engineer and crew of the extra. The five members of the crew who were arrested shortly after the accident, are now being held to await the result of official investigation.

Gazing vacantly between the iron bars of his cell at the police station, Engineer Hildebrand is too full of emotion to make any definite statement. "It will all come out at the investigation," he said. "I don't believe that there is anything for me to say and I could not say it if there were."

Before he was arrested, the engineer made a statement, in which he declared that if the danger signal was displayed at Takoma, he failed to see it, owing to the dense fog.

Milton W. Phillips, the operator, who is also held a prisoner at the Tenth precinct, said Tuesday that the equipment train ran past his danger signal board at a speed of 50 to 60 miles an hour. He said there was a heavy fog, but not enough to hide the red light. He declares that he immediately notified the operator at University station that the train had taken the block against orders. His statement is corroborated by the University station operator, who says he received the message. Policeman J. T. Kennedy, stationed at Takoma Park, will testify that he saw the signal light in its proper place and that Hildebrand drove past the signal. Fred Lamkum, gatekeeper at Takoma, makes a similar statement.

C. W. Galloway, general superintendent of transportation for the Baltimore and Ohio, exonerated the company from all blame and put the responsibility on the engineer of the equipment train or the operator at Takoma block.

If the coroner's jury fails to hold the engineer or the block operator," he said, "we shall not consider the matter settled. We shall go to the bottom of the wreck. This horrible catastrophe could have been avoided. Some one is responsible, and we intend to leave no stone unturned until the responsibility has been fixed. The Takoma block system was installed two years ago and is the safest known to railroad men.

Chairman Knapp, of the interstate commerce commission, tonight said that the commission considered the advisability of making a special investigation into the cause of the wreck. No decision has been reached, he says, as to when the investigation will be made. A member of the committee, in discussing the proposed investigation, said:

"It has been suggested that we ought to have an expert at the coroner's inquest, and that may be done, though he could not take any part in asking the questions.

"But it is probable under the joint resolution instructing us to investigate and report on the operation of the block signal system we could make a special inquiry in this, and the commission will take up as soon as posible the question of doing so."

RELATIVES REFUSED CORPSE.

Because of Charges, Was Re-Shipped and Buried in Original Grave.

Boonville, Ind., Jan. 2.—The remains of William Seitz, a former Boonville tobacco buyer, which were sent from Louisville, Ky., to Boonville only to be returned by the express company because relatives would not pay the charges, amounting to $203, including the cost of the casket, will arrive in Boonville later. Burial will take place immediately at Maple Grove cemetery.

Seitz died of pneumonia at Louisville, according to the death certificate, although it was first given out that he died of erysipelas. Recently Seitz divorced his second wife in Boonville, and a few days later he married Lizzie Lockhart, of Louisville. It is said that their wedded life was unhappy. They parted. A telegram was received from her in New Mexico saying: "Is Will's policy good? Bury him at Boonville."

Seitz held a $1,000 life insurance policy in the Court of Honor, made payable to his second wife. As he divorced her, she cannot be his legal beneficiary, the fraternal society holds.

Seitz was once a Boonville city councilman and a prominent business man.

5,000 CHILDREN FREED BY LAW

Second Section of Child Labor Bill In Effect.

TO BELL IS DUE THE PRAISE

Law Was Passed by the Efforts of Hon. Madison Bell, of Fulton, Who With the Assistance of Others, Fought Down Opposition.

Atlanta, Jan. 2.—The second section of the child labor bill, which was passed last summer, went into effect Tuesday, and it is estimated that at least 5,000 children, now working, who are under the age of 12, were removed from the factories and other places where children are employed in the state of Georgia.

The first section, which took all children from work who were under the age of ten years, went into effect when the bill was approved by the governor.

The third section, which stops children working who are under the age of 16 will go into effect the first of next year. This section prohibits a child under 14 from working between the hours of 7 p. m. and 6 a. m.

Section 4 goes into effect the first of next year, and it prohibits children under 14 years of age from working unless such child can write his or her name and simple sentences, and shall have attended school for twelve weeks of the preceding year.

Other sections made provisions for the carrying of the law into effect and for punishing those who violate it.

The section which went into effect Jan. 1, and freed 5,000 working children in Georgia, is as follows:

"Section 2. Be is further enacted, by the authority aforesaid. That on and after Jan. 1, 1907, no child under 12 years of age shall be so employed, or allowed to labor, unless such child be an orphan and has no other means of support, or unless a widowed mother or an aged or disabled father is dependent upon the labor of such child; in which event, before putting such child at such labor, such father shall produce and file in the office of such factory or manufacturing establishment, a certificate from the ordinary of the county in which such factory or manufacturing establishment is located, certifying under his seal of office to the facts required to be shown as herein prescribed; provided, that no ordinary shall issue any such certificate except upon strict proof in writing and under oath, clearly showing the necessary facts; and provided further, that no such certificate shall be granted for longer than one year, nor accepted by any employer after one year from the date of such certificate."

To the Hon. Madison Bell, representative in the legislature from Fulton county, is due the praise for the passage of the child labor bill in the state of Georgia.

Mill Men and Child Labor.

Covington, Ga., Jan. 2.—There being a comparatively small number of children under the age of 12 employed in the manufacturing establishments of this community, the new child labor law will not result in any appreciable inconvenience to them.

The cotton mill men claim that the operation of the new law will work no hardship on them, and that they are in full sympathy with the provisions of the new act.

More than 1,000 operatives are employed in the two cotton mills here, but at each of the plants an up-to-date public school is maintained, and the children of the factory employees are given as good chance to procure a common school education as can be found in the best regulated communities.

Farm Hand Kicked to Death.

AN OLD LANDMARK.

Hospital Building at High Springs to be Removed to Gainesville.

Chas. C. Warren has gone to High Springs, where he will be engaged for the next few weeks in tearing down and removing the old hospital building of the Atlantic Coast Line.

This building was recently sold to W. R. Thomas, and will be torn down, removed to Gainesville and the material utilized for building purposes. It is an immense structure, containing thousands of feet of lumber, and will require a large force several weeks to dismantle it.

This hospital was for several years a scene of activity, where were employed some of the most eminent physicians and surgeons of the country. It was constructed by the old Plant System as a division hospital, and patients were sent there from the West Coast and other divisions. When the Atlantic Coast Line secured possession of the Plant System, the hospital was consolidated with the one at Waycross, Ga., and the building was deserted and left as a resort for "bats, vultures, and other creeping things," and has since served as an eyesore—a monument of a faded industry, as its grim structure looked down upon the town of High Springs from its pedestal on a high embankment.

COLLECTOR ELLIS BUSY.

Has Collected Large Number of License and Other Taxes Thus Far.

"This has been a happy New Year, as well as a most satisfactory one for me," remarked City Tax Collector T. B. Ellis Tuesday, as he sat in a comfortable chair, with his feet under his desk, and handled a large number of checks and bills. "Collections have been remarkably good, and when collections are good I always feel happy."

Collector Ellis stated that his collections, both for license taxes and real and personal taxes, have been greater this season than for the same time at any previous year, and that property owners and business men as a rule were paying with less reluctance than in former years. This is evidence that the country and people are more prosperous than ever, for if a person is enjoying prosperity he does not mind so much the burden of taxes.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but modern science has proven that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

Inquest Was Unnecessary.

After investigating the particulars in the accidental killing of "Uncle Green," the aged colored man who was run down and killed by a train of the Seaboard Air Line on Tuesday afternoon, Justice Colman decided that an inquest was unnecessary.

The particulars of this accident are meager—in fact, there are no particulars, since no eye witnesses can be found.

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder troubles for years, passing gravel and stones with excruciating pain. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." J. W. McCollum & Co.

TIMOTHY BAILEY SUCCUMBS TO DEATH

Well Known Citizen of Newberry Died New Year's Eve.

IT WAS A TOUCHING SCENE

As the Devoted Wife and Children Stood Over the Dying Man, Full of Anguish — Deceased One of Most Widely Known Men in County.

A heartbroken wife, the tears from the eyes of whom trickled down the cheeks into the faces of her several little children as they nestled about her as she tenderly glanced with a loving glare into the face of her husband, who lay cold in death, is the sequel of long years of dissipation at a home in Newberry. It was indeed a sorrowful new year for this wife and mother, and it was one which had its pangs which none but those who have experienced it can appreciate.

Tim Bailey was the victim of death, and his devoted wife and innocent children were the sufferers. It is said that he died after a week's hard dissipation, during which his good wife and children and their friends pleaded with him in vain. After his system could stand the strain no longer he succumbed on the eve of New Year.

There was probably no man in the West End more widely known than Tim Bailey, and at one time, and for several years, he was one of the most prosperous of the people of that favored section. He held political honors, he was engaged in business, he was financially in a substantial condition; but his genial disposition, his generosity and his friends kept him constantly in a whirl, and his pocketbook was opened too frequently. Although a young man, it has been said that he has spent two or three small fortunes during his career, the majority of which was invested on his friends. No person could visit the town of Newberry of Mr. Bailey's acquaintance but he must accept the hospitality of this man, and so magnetic and friendly was his influence that no man could resist.

After a time, from this constant whirlwind of pleasure, Mr. Bailey began to fail, both in a financial and physical way, and as the rippling brook washes away the sand, his vitality gradually vanished, until death has at last come to relieve him of his earthly troubles.

A beautiful life picture, which would be a lesson to the young and old alike, could be written of Tim Bailey, who was familiarly known all over the county and elsewhere as "Judge Timothy." No man ever possessed a more generous or a more tender heart, and many kind deeds of charity he has extended were never known.

Deceased was buried in the Tyler road cemetery, about five miles from Newberry, on New Year's day.

The Sun, with other friends, extends to the bereaved wife and children sincere sympathy in their hour of distress.

Elmer McCreary's Party.

Elmer McCreary, son of Mr. and Mrs. H. H. McCreary, who is attending Randolph-Macon Academy, Bedford City, Va., tendered a complimentary party to his friends at the home of his parents Tuesday evening.

There were about fifty present. The evening was passed in a manner appropriate to the occasion, and delicious refreshments were served, and everyone present enjoyed the evening very much.

Elmer expects to return to his studies the latter part of the present week.

Charged With Stealing Grips.

St. Louis, Jan. 2.—John Brinkmeyer, 66 years of age, who says his home is in Evansville, Ind., was arrested at Union Station and is a prisoner at the Four Courts. It is charged by Policemen Weaver and Cots that Brinkmeyer walked off with a decoy grip which they had left purposely to cause the arrest of the man, who had been stealing grips for the past few days.

MR. M'ARTHUR HERE.

New District Superintendent of the Atlantic Coast Line Has Arrived.

H. O. McArthur, the recently appointed district superintendent of the Atlantic Coast Line with headquarters in Gainesville, has arrived in the city and assumed the active management of the district. The office force has been engaged for several days and Chief Clerk Barnes has been kept constantly busy, but the greater part of these duties were the preliminaries, preparatory to beginning work proper.

Superintendent McArthur was delayed by a very sad misfortune, having lost an infant at Sanford a few days ago. The little one was interred in Wilmington, N. C., and he accompanied the remains. He came direct from Wilmington here.

The people of Gainesville will gladly welcome Superintendent McArthur and his estimable family, and trust they will be pleased with their new home. They also welcome the return of the district headquarters, which were removed to Jacksonville about two weeks ago.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." J. W. McCollum & Co.

Charged with Cattle Stealing.

Richmond, Ky., Jan. 2.—Hisle Noland, a negro, is in jail here charged with cattle stealing. It is alleged that the negro stole several head of fine export cattle from Dr. R. C. Combs and sold them to Dudley Pearsons. The cattle were found on the farm of Pearsons, who said he had purchased them from the negro.

State of Tennessee Enjoined.

Nashville, Tenn., Jan. 2.—The injunction granted John D. Fletcher and Hayden Dodd here, enjoining the State of Tennessee from purchasing 11,000 acres of coal land in the Cumberland mountains has been dissolved by chancellor Allison. This, of course, throws the case out of court.

An Audacious Fool.

The function of the king's fool in mediaeval times was in a measure an important one, and he who filled the post had often very great influence with his sovereign. Perhaps the brightest and most astute of fools was Triboulet, the favorite jester of Francis I. It was reported that his majesty, who was of a very generous nature, had acceded to a request of Charles V., emperor of Germany, that he might pass through France on his way from Spain to the Netherlands. Putting aside all recollection of what he had suffered at the emperor's hands while a captive in Spain, Francis was preparing to receive Charles with much ceremony and splendor. Observing one morning that Triboulet was scribbling industriously upon a bit of paper, Francis inquired what he was doing.

"I have just added the name of Emperor Charles of Germany to my list of fools," answered the jester, "a sovereign who is committing the incredible folly of intrusting himself to you by passing through your kingdom."

"Folly? How if I should let him pass safely?"

"Then I shall substitute your name for his," was the audacious retort of the fool.

Won by His Victim.

Baron de Mohrenheim, a Russian diplomat, was one of the strongest figures in the political life of his country. He did not believe in conceding a point if hard fighting seemed likely to bring victory. While holding a high position in St. Petersburg his life was threatened by a conspiracy. A workman had been detailed to kill him, and after the plot was discovered he had the man brought before him. The accused was a youth who had been driven by starvation to join the revolutionists. "You do not agree with what I am doing?" said the baron in a friendly tone. The man answered defiantly in the negative. "Very well," said the intended victim, "every man is entitled to his opinion, and I think that what you want is work." He ordered the man to be freed and found him employment in his own service, where the workman remained till the day of his death a few years afterward.

Broke the Spell.

Up to the time of Grover Cleveland's election it was a popular superstition with politicians that no candidate whose name began with the letter C could be elected to the presidency. The idea arose from the fact that no man whose surname presented this peculiarity, no matter how strong he was with the people, had ever been successful at the polls. There were two Clintons, George and De Witt; William H. Crawford, Henry Clay, Lewis Cass and a number of others, who, though their prospects seemed bright indeed, met with defeat when it came to the test. Several of the C's, George Clinton and Henry Clay, for instance, were strong candidates several times, but never could "make the riffle."

A Book of Blunders.

One of the most valuable books for the professional collector is esteemed solely on account of its errata and the author's peculiar explanation of how so many blunders came to be made. The book is entitled "The Anatomy of the Mass." It consists of 172 pages and is accompanied by a list of errata of fifteen closely printed pages. The author in his explanation attributes the mistakes to the devil, who, he says, first caused him to drop the manuscript in a ditch and thus made it almost illegible and, secondly, by befuddling the printers made them commit a number of blunders never equaled in a work of that size.

Nero and Big Noses.

Nero never liked a person with a large nose. He flippantly told the sorrowing relatives of Plautus—whom, it is alleged, he killed—that it was only on inspecting the corpse that he discovered that Plautus had so large a nose, and if it had been pointed out before he would have certainly spared his life. "Life with such a nose," coolly added Nero, "would have been ample penance for any crime."

ALABAMA COTTON GROWERS

Will Meet in Montgomery on Wednesday, Jan. 2.

Montgomery, Ala., Jan. 2.—The Alabama division of the Southern Cotton association will convene in this city in annual session on Wednesday, Jan. 2, 1907. It is expected that at least 200 delegates will be in attendance, representatives from nearly every county in the state.

President Charles L. Gay, of the Montgomery county division, has issued a circular to all the members of his division urging their attendance upon the meeting and particularly stressing the importance of a large out pouring of delegates to consider the matters that are to be brought into prominence at the session.

Of special interest during the session will be the annual election of state officers, the election of delegates to the national convention which is to be held in Birmingham Jan. 17-19, and the election of three members of the national executive committee. W. F. Vandiver, of Montgomery, one of the members of this last committee, announced some time ago that he would not allow his name to go before the body for re-election, but in view of the fact that many appeals have been made to him to withhold his decision, a decided answer has not as yet been given.

This session of the farmers will be the third annual convention of the planters. Many important matters are up for consideration, some of the principal of which will be the discussion of the tag tax bill.

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that resulted in pneumonia or that has not recovered. For sale by all druggists.

Kuropatkin's Book Confiscated.

St. Petersburg, Jan. 2.—Local newspapers assert that the book written by General Kuropatkin on the Russo-Japanese war, which has been published, has been confiscated by the authorities. General Kuropatkin's work on the war is in several volumes. It is understood to discuss frankly the faults of the Russian system and to set forth the general's troubles with the war office and his subordinates during the campaign.

Gun for Thief Killed Neighbor.

Trenton, Tenn., Jan. 2.—Unable to find what caused unnatural noises frequently heard in the yard at night, B. S. Comer fixed a trap gun in the window with wire connecting it with the gate. Frank Dickson, a neighbor, entered the gate, on a peaceful visit, and was shot to death by the trap gun.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed *free* to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

CHOPPED CHIEF WITH HATCHET

Drunken Man Resists Arrest and then Wounds Officer.

Rome, Ga., Jan. 2.—Monday night about 7 o'clock, a call was sent to the police headquarters from the store of the Floyd cotton mills, for an officer to come around and arrest a disorderly man.

An officer was sent, and found that Bud Mooney, an employee of the cotton mills, had been creating a "rough house" generally. The officer went down to Mooney's house, on Railroad street, to arrest him, but was unable to do so, on account of the fierce fight he put up. The officer asked Mooney's son-in-law to assist him, but Leeroy failed to respond. He stated afterwards that the reason he didn't do so was because he was afraid of Mooney.

Officer Dempsey called up the chief of police and asked for assistance. The chief and Officer O. Z. Cooper responded. All three officers then went again to Mooney's house and tried to effect an entrance. While they were trying to get in, Mooney suddenly opened the door and struck Chief Wimpee on the head with a hatchet three times, inflicting several wounds. The chief struck Mooney several times with his pistol on the head badly wounding him. He stated that he would have shot Mooney, but deferred from doing so on account of the presence of the women, Mooney's wife and daughters being in the room.

Mooney was then arrested and carried to the police station.

Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all druggists.

Two Caskets Buried in One Grave.

Columbus, Ind., Jan. 2.—Into one grave in Garland Brook county cemetery two coffins were lowered. One contained the body of John Burke, the other was filled with earth from his grave. The coffin filled with earth rested on that containing the body. The dead man hewed it from a tree he had planted many years ago. He requested that he be buried in it, but the casket was too far gone to be used for the purpose for which it was built. His relatives ordered that it be buried with its aged maker.

Comment is made that the "unwritten law" has been invoked so much of late that it has become epidemic. Well, got to have some law. The written or statute law doesn't seem to be pushed along to any extent.

If you have found it difficult at this season of increased expenditures to make both ends meet, remember that the enormous increased cost of nearly everything you buy can be traced to the tariff that has fostered trusts and still protects those corporations

PROTECTING HOME MARKETS

There is a meat famine in Germany, brought about by the new tariff law, which was enacted for the benefit of the land owners. Herr Weimer, a radical member of the Reichstag, stirred the wholesale price of meat in Germany as being 22½ cents a pound, while in Belgium it was 14 cents, in Spain 13½ cents, in France 13 cents, in England 13½ cents, in the United States 13 cents, and in Russia 6½ cents. The Minister of the Interior, replying to this, said it was impossible for the government to reduce or abolish the duties on cattle or meat, and it was unadvisable to import French or Italian live stock, because of the foot and mouth disease. He also said:

"A system of foreign meat inspection was proposed in order to assure the importation of killed meat in good condition. It was also hoped that a reduction of the tariff on the inland transport of fresh meat would improve the situation, but the government declined to make any reduction of the duties on cattle or meat, or to abolish any of the tariffs determined by commercial treaties with various states. The minister, however, expressed the hope that the home production, which already supplied 95 per cent of the population, would expand under the protective tariff."

It is of importance to note that not a word was said about making any concessions for the importation of American meat. In consequence of the protection wall raised by our tariff against German products it is evidently intended to put in force the retaliative tariff against imports from the United States. Thus the farmers of this country will suffer a loss of a large and growing market for their products and the people of Germany be plundered for the benefit of the land owners under the guise of protecting the home market of both countries.

No wonder there is unrest in Germany and a revolt against the government by the representatives of the German people, and a new election has been called. The people of the United States are also suffering from high prices of meat and other commodities, and there is a growing demand for revision of the tariff that shelters trusts, but our more patient people have not revolted against their standpat government, except in spots. There are, however, strong indications that the next national campaign will result in a protest against the tariff that fosters trusts, and the overthrow of the standpatters.

Secretary Shaw has been a great advocate of Republican prosperity, but it now appears that he is getting too much of it, for he declares that, "We who pray should ask God to save us from any increased prosperity; we have all we can stand." He further declares, "We are growing more crops than we can harvest, and harvesting more than we can haul to market." How would it do for Shaw to pray for chinch bugs and boll weevil and drought and rain in harvest time, but we trust such prayers would not be answered. But taking Shaw seriously, may he not be "edging" to the fact that Republican prosperity is for the few at the expense of the many who have to pay the high prices which the tariff-fostered trusts are allowed to charge under Republican protection?

Rockefeller, Jr., one would think, must be in training for President, for he preaches every Sunday to the public on morals, religion and the strenuous life. His latest effort was on the subject of wives, and he advised unmarried men not to "marry a woman who is not in full sympathy with your ideals. Don't marry a woman simply because she is pretty." He also declared it was a huge mistake to pick out wives only for their money. He did not tackle the subject of race suicide, but that interesting subject is hardly fit for a Sunday school lecture.

The Hippopotamus.

At times the hippopotamus exudes what has been described as a "bloody sweat." Microscopically examined the exudation is found to consist of a great number of minute colorless bodies, resembling the colorless corpuscles of the blood, and a smaller number of pink colored bodies, made up of some crystalline substance forming clusters of rodlike and triradiate form. These, becoming dissolved, give the surrounding fluid medium a deeper pink color than that observable before dissolution took place. Both the colored and colorless matter appear to be exuded by special pores in the skin which display activity only immediately after the creature has left the water.

Ants as Germ Carriers.

A German bacteriologist was conducting an experiment in the course of which he made use of typhoid infected mice. In another cage he had some mice which were in good health. Shortly after the uninfected mice also developed typhoid. Investigation showed that ants were passing from one cage to the other. Some of these ants were examined, and their bodies were found to be covered with the typhoid germs, which they were carrying from the sick to the well mice.

The Wolves' Muzzles.

He was telling a thrilling story of one of his hairbreadth escapes abroad, and the young girl leaned forward and hung upon his words breathlessly.

"And they were so near," he said, "that we could see the muzzles of the wolves."

"Oh," she gasped, "how glad you must have been that they had their muzzles on!"

An Awful Combination.

Ambling Andrew—Turn back, pal, turn back! This town you're a-comin' to is awful. Chilly Nytes—Wot's wrong with it? Ambling Andrew—W'y, everybody keeps a dog, there's three cookin' schools, a soap factory, an' the town's name is Bath.—Illustrated Bits.

Just a Hint.

Father (at head of stairs) — Ethel, what time is it? Ethel (in drawing room—It's a quarter past 10, father. Father—All right. Don't forget to start the clock again after the young man goes out to get his breakfast.

A Better Test.

"That man is so honest he wouldn't steal a pin," said Mr. Goode.

"I never thought much of the pin test," answered Mr. Cayenne. "Try him with an umbrella."

KILLS FATHER WITH TUMBLER.

Lad Throws Water Glass at an Enemy, but Strikes Father.

Springfield, Mo., Jan. 2.—Lee Heffley, a stockman, of Barry county, was killed and his son Clyde and Lon Talman, a bystander, wounded at Wilwaukee, a small town in this county, by Walter Fogg, a traveling salesman and son of William Fogg, a farmer, of that neighborhood.

The trouble grew out of a case in which the testimony of young Heffley's sister sent Fogg's brother to the penitentiary last summer for two years. About the same time Walter was indicted for selling liquor without a license on the testimony of Frank Heffley, the girl's brother.

When Lee Heffley and his son Clyde met Walter Fogg in a store at Wilwaukee, Clyde threw a tumbler at and hit Fogg, whereupon the latter drew a revolver and commenced firing. The senior Heffley was shot through the heart, his son through the right hand and Talman in the hip.

Fogg then drove to Cassville, consulted a lawyer, and then gave himself up. He has a wife and one child.

Express Messenger Disappears.

Memphis, Tenn., Jan. 2.—Private detectives who have been trying to locate Otis Heathman, who came into the employ of the local division of the Southern Express company four years ago from a point in Arkansas, express grave doubts as to the welfare of the man, who disappeared mysteriously from his home in this city Thursday evening, after bidding wife and children goodby. Heathman is a native of Danville, Ky. Superintendent Agee, of the local division of the express company, is at a loss to account for Heathman's absence. His accounts have been checked up and found in order, at least $1,000 having been placed in the safe but a few hours prior to the last moment he was seen around the office.

Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain its food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. M. Johnson

The Awe Inspiring "Costume Play."

One very common notion seems to possess playgoers on both sides of the Atlantic. It is the notion that a costume play, a play whose scenes are laid anywhere and any time between the birth of Christ and 1837, does by that very fact acquire a literary merit, a literary distinction and profound significance which rank it immeasurably above the mere prose play of modern everyday life. It matters not whether the personages of the costume play talk blank verse or a patchwork diction compounded from every literary and conversational style from Clarendon to Whitechapel costermonger, to the great majority of playgoers the costume play brings that elevation of mind and feeling that vague but gratifying sense of superiority, which was felt by the bourgeois gentilhomme when he discovered that, without taking the least pains, he was a person of very considerable literary attainments. This feeling of awe in the presence of a costume play has persisted so long as I can remember.—Henry Arthur Jones in Atlantic.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at all drug stores. 50c and $1. Trial bottle free.

The Oldest Bank.

The Bank of Naples is the oldest bank in existence, for the Monte Vecchio of Venice and the Banco San Giorgio at Genoa, both founded in the twelfth century, have ceased to exist, as has also the Bank of Barcelona, founded in the fourteenth century. The Bank of Naples was founded in 1539 and is a state bank with a considerable capital, to which no one lays any claim. In other words, it is a joint stock bank, with no shareholders.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

An incident of the [illegible] race [illegible] at the meet of E. A. Hardenbrook's Westchester plate harriers at North Pelherton. The hounds were in full cry in a field of roots after a hare when a second hare was disturbed, with the result that, racing in an opposite direction, she collided with the first hare. Both were killed on the spot, one having its neck dislocated, the other apparently dying of fright.—London Mail.

Butler and Hoar.

Ben Butler in a case in the Massachusetts supreme court involving damages for fatal injury. Senator Hoar being on the other side, quoted Job: "All that a man hath will he give for his life." "That," said Mr. Hoar, "was a plea of the devil in a motion for a new trial, and I don't think the court will be more impressed by it on account of its modern indorsement."

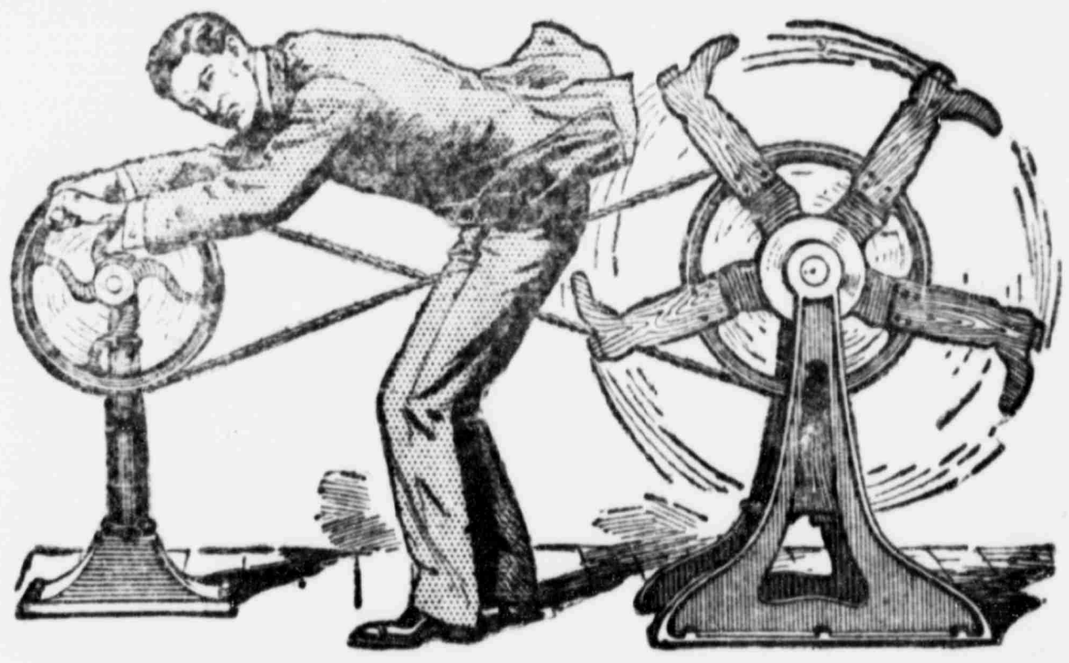
How to Prevent Bilious Attacks.

One who is subject to bilious attacks will notice that for a day or more before the attack he is not hungry at meal times and feels dull after eating. A dose of Chamberlain's Stomach and Liver Tablets when these first symptoms appear will ward off the attack. They are for sale by all druggists.



This man bought a supply of tobacco without acquainting himself with the distinctive taste of SCHNAPPS Tobacco, which has the cheering qualities that gratify his desire to chew, and at less expense than cheap tobacco.

SCHNAPPS has been advertised in this paper so that every chewer has had an opportunity to get acquainted with the facts and know that drugs are not used to produce the cheering quality found in the famous Piedmont country flue-cured tobaccos, and that SCHNAPPS is what he ought to chew. Still there are chewers who accept other and cheaper tobaccos that do not give the same pleasure.

Some day they'll get a taste of the real *Schnapps*—they'll realize what enjoyment they've missed by not getting SCHNAPPS long ago—then they'll feel like kicking themselves.

SCHNAPPS is sold everywhere in 5 cent cuts, and 10 and 15 cent plugs. Be sure you get the genuine.

The French View of Marriage.

The French, guided by reason, as they say, regard the institution of matrimony as a rational regulation of the fact of sex, as a compromise between the rights of the individual and the rights of society. The man obeys, but under protest. He is willing to sacrifice his liberty so far, but beyond that point he regards self abnegation as fanatical asceticism. Marriage under French usage is a partnership in which such matters as character, tastes, education, birth and property are to be considered. Contracting families scrutinize the proposed bride and groom as if coming up for admittance into a club. They look at our custom of marrying for love with amazement, as we should look at a grocer's cart that started on its rounds at thirty miles an hour. Our system confines its view to the romantic dreams of youth and regards matrimony rather as a holiday cruise than a voyage for life. We may err in our endeavor to regard men and women as disembodied spirits, and yet we cannot but think that the French err in their resolution to be sensible and regard men and women as animals taken in the toils of society. Our theory may look too far into the future, theirs lingers too far in the brutal past.—H. D. Sedgwick in Atlantic.

Captain A. Paul, special agent of the United States land office, has returned from points in West Florida and Southern Alabama, where he has been for some time on official business. He reports the people throughout the sections visited in excellent condition, with plenty of "hog and hominy" and other good things. Captain Paul considers West Florida a charming country, and wonders why it is that some parts of that fertile section are not more thickly settled. He notes, however, a steady increase, and every newcomer with whom he has talked seems perfectly satisfied.

SMALL BOYS BLOWN HIGH,

Accident at the New Year Celebration in Savannah, Ga.

Savannah, Ga., Jan. 2.—While a party, consisting of the young son of Fire Chief J. E. Maguire, two sons of Richard Cooley, and a son of Henry Boden, and two small negro boys, were engaged at midnight in the celebration of the birth of the new year, through the agency of a small cannon, a spark flew into a can of powder from which they were securing their ammunition.

Small boys were blown in every direction. When they emerged from the smoke they were all more or less injured. The results may prove serious for two or three, who were reported from the drugstore, to which they were all taken by the police that hurried to the scene, as being in some danger of permanent afflictions from the severe burns they received.

Hours of Workmen Too Long.

Cleveland, O., Jan. 2.—Secretary Goldsmith, of the Ohio Federation of Labor, has announced that arrangements were being made to hold in this city a meeting of representatives of the blast furnace and coke workers employed in the mills of the Mahoning and Shenango valleys, at which time demands will be formulated for an eight-hour work day. The men are now working 12 hours a day. They made a demand for a shorter day four years ago, but finally compromised on a 10 per cent increase in wages, with the same hours as before. According to Secretary Goldsmith, the sentiment among the men strongly favors a strike unless a shorter working day is granted.

Attempt to Assassinate Woman.

Houston, Tex., Jan. 2.—A supposed attempt to assassinate Mrs. T. H. McGregor, the wife of Representative-elect McGregor, and the announcement that members of the family of F. Charles Hume had been poisoned, has led many Houston householders to discharge their negro servants. A negro man, who had been a servant in the McGregor home, is under arrest, charged with shooting into the dining room of the McGregor home. The bullet narrowly missed Mrs. McGregor's head. The shooting followed a rebuke to the negro's wife, who was employed as cook for the McGregors. The police are now investigating the alleged poisoning of the Hume family.

Cut His Wife ...

Mt. Carmel, Pa., ... William Whittager murdered his wife by cutting her throat with a razor in the presence of his own mother and that of his victim. The two mothers and wife were conferring in the home of the wife's parents when Whittager entered the parlor, and, after addressing his wife, drew the razor across her throat from ear to ear. Whittager has been arrested. Three weeks ago the couple quarreled and the wife returned to her father's home, alleging that her husband treated her cruelly.

RAIL HORROR STILL GROWS IN MAGNITUDE

53 Dead at Washington and About 60 Injured.

MORGUE SCENES HEARTRENDING

Investigation Seems to Fix the Responsibility on the Engineer Who Disregarded Danger Signal—Engineer Is Under Arrest.

Washington, D. C., Jan. 2.—The Baltimore and Ohio wreck at Terracotta, grows in magnitude as the hours pass.

The most conservative estimate on the dead is 52, with three scores of injured at the hospitals or at their homes, suffering from wounds and fractures sustained in the rear-end collision, which completely demolished the two day coaches and the smoker attached to the local Frederick, Md., train No. 66. Several of the most seriously injured are expected to die, and the death list may yet reach sixty or more.

Heart-rending and pitiful were the scenes at the city morgue, where hundreds of persons flocked to assist the police in the identification of the dead. Women, girls and even men with iron nerves, sobbed aloud and fainted as their relatives or friends were found among the corpses strewn about the floor.

Officials of the Baltimore and Ohio railroad are conducting an investigation of the wreck in Baltimore for the purpose of placing the responsibility for the disaster.

General Superintendent Toll exonerated Milton V. Phillips, the operator at the Takoma block station, the last signal station that the equipment train passed before crashing into the passenger train at Terracotta. The superintendent declared that Phillips was obeying instructions when he went home at 6:30 o'clock, leaving the double green signal burning. While making no positive charge, Superintendent Todd intimtaed that the burden of the blame would fall upon the engineer and crew of the extra. The five members of the crew who were arrested shortly after the accident, are now being held to await the result of official investigation.

Gazing vacantly between the iron bars of his cell at the police station, Engineer Hildebrand is too full of emotion to make any definite statement. "It will all come out at the investigation," he said. "I don't believe that there is anything for me to say and I could not say it if there was."

Before he was arrested, the engineer made a statement, in which he declared that if the danger signal was displayed at Takoma, he failed to see it, owing to the dense fog.

Milton W. Phillips, the operator, who is also held a prisoner at the Tenth precinct, said Tuesday that the equipment train ran past his danger signal board at a speed of 50 to 60 miles an hour. He said there was a heavy fog, but not enough to hide the red light. He declares that he immediately notified the operator at University station that the train had taken the block against orders. His statement is corroborated by the University station operator, who says he received the message. Policeman J. T. Kennedy, stationed at Takoma Park, will testify that he saw the signal light in its proper place and that Hildebrand drove past the signal. Fred Lamkum, gatekeeper at Takoma, makes a similar statement.

C. W. Galloway, general superintendent of transportation for the Baltimore and Ohio, exonerated the company from all blame and put the responsibility on the engineer of the equipment train or the operator at Takoma block.

If the coroner's jury fails to hold the engineer or the block operator," he said, "we shall not consider the matter settled. We shall go to the bottom of the wreck. This horrible catastrophe could have been avoided. Some one is responsible, and we intend to leave no stone unturned until responsibility has been fixed. The block system was installed two years ago and is the safest known to railroad men.

Chairman Knapp, of the interstate commerce commission, tonight said that the commission considered the advisability of making a special investigation into the cause of the wreck. No decision has been reached, he says, as to when the investigation will be made. A member of the committee, in discussing the proposed investigation, said:

"It has been suggested that we ought to have an expert at the coroner's inquest, and that may be done, though he could not take any part in asking the questions.

"But it is probable under the joint resolution instructing us to investigate and report on the operation of the block signal system we could make a special inquiry in this, and the commission will take up as soon as postble the question of doing so."

RELATIVES REFUSED CORPSE.

Because of Charges, Was Re-Shipped and Buried in Original Grave.

Boonville, Ind., Jan. 2.—The remains of William Seitz, a former Boonville tobacco buyer, which were sent from Louisville, Ky., to Boonville only to be returned by the express company because relatives would not pay the charges, amounting to $203, including the cost of the casket, will arrive in Boonville later. Burial will take place immediately at Maple Grove cemetery.

Seitz died of pneumonia at Louisville, according to the death certificate, although it was first given out that he died of erysipelas. Recently Seitz divorced his second wife in Boonville, and a few days later he married Lizzie Lockhart, of Louisville. It is said that their wedded life was unhappy. They parted. A telegram was received from her in New Mexico saying: "Is Will's policy good? Bury him at Boonville."

Seitz held a $1,000 life insurance policy in the Court of Honor, made payable to his second wife. As he divorced her, she cannot be his legal beneficiary, the fraternal society holds

Seitz was once a Boonville city councilman and a prominent business man.

5,000 CHILDREN ... FREED BY LA...

Second Section of Child Labor Bill In Effect.

TO BELL IS DUE THE PRAI...

Law Was Passed by the Efforts of Hon. Madison Bell, of Fulton, ... With the Assistance of Others Fought Down Opposition.

Atlanta, Jan. 2.—The second section of the child labor bill, which was passed last summer, went into effect Tuesday, and it is estimated that at least 5,000 children, now working who are under the age of 12, were removed from the factories and other places where children are employed in the state of Georgia.

The first section, which took children from work who were under the age of ten years, went into effect when the bill was approved by the governor.

The third section, which stops children working who are under the age of 16 will go into effect the first of next year. This section prohibits a child under 14 from working between the hours of 7 p. m. and 6 a. m.

Section 4 goes into effect the first of next year, and it prohibits children under 14 years of age from working unless such child can write his or her name and simple sentences, and shall have attended school for twelve weeks of the preceding year.

Other sections made provisions for the carrying of the law into effect and for punishing those who violate it.

The section which went into effect Jan. 1, and freed 5,000 working children in Georgia, is as follows:

"Section 2. Be is further enacted by the authority aforesaid. That on and after Jan. 1, 1907, no child under 12 years of age shall be employed, or allowed to labor, unless such child, be an orphan and has no other means of support, or unless a widowed mother or an aged or disabled father is dependent upon the labor of such child; in which event before putting such child at such labor, such father shall produce on file in the office of such factory or manufacturing establishment, a certificate from the ordinary of the county in which such factory or manufacturing establishment is located, certifying under his seal of office to the facts required to be shown as hereprescribed; provided, that no ordinary shall issue any such certificate except upon strict proof in writing and under oath, clearly showing the necessary facts; and provided further, that no such certificate shall be granted for longer than one year, nor accepted by any employer after one year from the date of such certificate."

To the Hon. Madison Bell, representative in the legislature from Fulton county, is due the praise for the passage of the child labor bill in the state of Georgia.

Mill Men and Child Labor.

Covington, Ga., Jan. 2.—The being a comparatively small number of children under the age of 12 employed in the manufacturing establishments of this community, the new child labor law will not result in any appreciable inconvenience to them.

The cotton mill men claim that the operation of the new law will work a hardship on them, and that they are in full sympathy with the provisions of the new act.

More than 1,000 operatives are employed in the two cotton mills here, but at each of the plants an up-to-date public school is maintained, and all children of the factory employees are given as good chance to procure a common school education as can be found in the best regulated communities.

Cracked and Bleeding in Many Places—Became so Bad that Nail Came Off Finger—Tried Many Remedies and Consulted Three Doctors, but Got No Relief—Now Cured and Is Very

PROUD OF HAVING TRIED CUTICURA REMEDIES

"I had eczema on my hands for about eleven years. The hands cracked open in many places and bled. One of my fingers was so bad that the nail came off. I had often heard of cures by the Cuticura Remedies, but had no confidence in them as I had tried so many remedies, and they all had failed to cure me. I had seen three doctors, but got no relief. Finally my husband said that we would try the Cuticura Remedies, so we got a cake of Cuticura Soap, a box of Cuticura Ointment, and two bottles of Cuticura Resolvent Pills. Of course I keep Cuticura Soap all the time for my hands, but the one cake of Soap and half a box of Cuticura Ointment cured them. It is surely a blessing for me to have my hands well, and I am very proud of having tried Cuticura Remedies, and recommend them to all suffering with eczema. Mrs. Eliza A. Wiley, R. F. D. 2, Liscomb, Iowa, Oct. 18, 1906."

DEATH OF MRS. JOHNSTON.

Wife of Captain John B. Johnston Died in Jacksonville Sunday.

Mrs. John B. Johnston, wife of Capt. J. B. Johnston of Dade City, well known in this city, where for several terms she was engaged in teaching in the University High School, died at the home of her step-son, W. J. Johnston, in Jacksonville, Sunday night, as the result of a surgical operation performed in Atlanta several days ago.

Mrs. Johnston progressed finely after the operation, and decided in a few days that she would be enabled to make the return trip home. She left Atlanta, but upon reaching Jacksonville felt so fatigued that she went to the home of her step-son, where she was taken to her bed and never recovered.

Deceased was popular here, not only among the faculty and pupils of the school, but with everyone. She was a lady of exceptionally rare integrity, and was a teacher of exceptional ability.

Sympathy is extended to Captain Johnston, who was for years a resident of Alachua county, and also to the surviving children of the deceased.

The remains were shipped to Dade City for interment.

MR. DORMAN DEAD.

One of Gainesville's Well Known Citizen's Passed Away Sunday.

Charles F. Dorman, one of Gainesville's most widely known citizens, for more than twenty years a resident of this city, died at a quarter past 6 o'clock Sunday morning, of paralysis, after an illness of about two years.

Deceased was a native of Kansas, but has been in Florida the greater part of his life. He was about forty-two years of age. When very young his mother moved with him to Florida, locating with him on Indian river. After a few years' residence there, however, they came to Gainesville, where they have since resided. In 1887 he was married to Miss Elizabeth Whidden.

Mr. Dorman has always been an active man, manifesting an interest in everything for the moral and commercial advancement of the city. He was also, up to the time of his first misfortune in the nature of a stroke of paralysis, very energetic, and for years held the responsible position of foreman at the plant of the Eddins Manufacturing Company. Having become incapacitated for work of this character, he engaged in the agency of clothing, and carried a stock of music books. Subsequently he purchased the Central City Barber Shop, and conducted that up to the time he was compelled to take his bed.

Deceased is survived by his mother, Mrs. M. E. Dorman, his wife, two sons, Robert and Albert, and one sister, Mrs. Henry Ramsey, to all of whom the sympathy of friends and the community is extended.

The Funeral.

The funeral was conducted from the residence Monday morning at 10 o'clock, Rev. Thos. P. Hay of the Presbyterian church, assisted by Rev. T. J. Nixon of Kavanaugh Methodist Church, officiating. The concluding services at the grave, however, were conducted by Mount Vernon Lodge No. 20, Knights of Ptyhias, of which order deceased was a member, and which attended in a body. Both services were very impressive.

A large number of flowers were resting upon the casket, as a testimony of love and friendship of those who knew deceased.

The pall-bearers were J. A. Phifer, L. J. Burkhim, John Robertson, Alexander Howe, M. B. Saunders and R. T. Schafer.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guranteed at all drug stores. 50c and $1. Trial bottle free.

THE OPENING CEREMONIES

...ill be Held On or About January 21, and Will be One of the Most Important Ever Seen Here—Congressman Towne to be Present.

The elegant home of Gainesville Lodge No. 960, B. P. O. E., which has been under course of erection for the past few weeks, is progressing nicely, and when the building is completed the Gainesville Elks will point with pride to one of the handsomest homes in the South of the kind, for a city the size of Gainesville.

The carpenters and brick masons are busy on the addition, which is of the most modern architectural design. The plans were made with a view to comfort and convenience, and members of the order and their friends may expect comfort there. The rooms will be large and well ventillated, with plenty of light, but will be heated by the most modern steam appliances. In all, the building will be modern from cellar to garret, and something which will be a credit to the city.

As has been previously announced, there will be a big house-warming in January, when the building will be ready for occupancy. Hon. Chas. A. Towne, Congressman from New York, and one of the leading Democrats and orators of the United States, has accepted an invitation to deliver the opening address, which will be of almost national importance. Congressman Towne is himself an Elk, and a personal friend of Congressman Frank Clark, through whose influence he decided to come to Gainesville.

READY SALE FOR FLORIDA HOGS

Florida Cannot Supply the Demand for Her Own Consumption.

A report recently made by one of the officials of a large meat packing company, who has investigated the matter, says in part that Florida cannot supply the demand for pork from her own people. This report is predicated upon the fact that it is impossible to get the Florida razor back or improved breed of hogs to the market, even though good prices have been offered for them in Jacksonville, where the only packing house in the State is located.

This packing house has been forced to send to Georgia and Alabama for the same character of hogs which are raised right here in Florida. The report goes on further to state what can be made from the raising of hogs where a ready market exists, such as the one in Jacksonville. The figures are based upon facts as gathered by the State department of agriculture and indicate that the farmer can do better with the hogs than he can with the cattle that he endeavors to raise for the market. Hogs cost little, and it takes but a few months to raise them and prepare them for market. If the Florida farmer would raise a sufficient number of hogs each year to make up a carload, or club with their neighbors, the packing house in Jacksonville would readily take them off their hands, paying a good price for them.

Directly after the adjournment of the old board, the new board, which was elected at the last quarterly conference, consisting of H. L. Phifer, J. M. Dell, W. L. Floyd, E. K. Fagan, R. B. Peeler, Henry Ramsey, W. M. Pepper, W. R. McKinstry, Ferdinand Bayer, Wm. R. Thomas, J. B. Padgett and J. W. Cannon, organized by electing H. L. Phifer chairman, and Ferdinand Bayer secretary and treasurer. Miss Myrtle Fennell was re-elected organist for the church, and Miss Mamie Hill was re-elected organist for the Sunday school.

Hospital Building at High Springs to be Removed to Gainesville.

Chas. C. Warren has gone to High Springs, where he will be engaged for the next few weeks in tearing down and removing the old hospital building of the Atlantic Coast Line.

This building was recently sold to W. R. Thomas, and will be torn down, removed to Gainesville and the material utilized for building purposes. It is an immense structure, containing thousands of feet of lumber, and will require a large force several weeks to dismantle it.

This hospital was for several years a scene of agtivity, where were employed some of the most eminent physicians and surgeons of the country. It was constructed by the old Plant System as a division hospital, and patients were sent there from the West Coast and other divisions. When the Atlantic Coast Line secured possession of the Plant System, the hospital was consolidated with the one at Waycross, Ga., and the building was deserted and left as a resort for "bats, vultures, and other creeping things," and has since served as an eyesore—a monument of a faded industry, as its grim structure looked down upon the town of High Springs from its pedestal on a high embankment.

COLLECTOR ELLIS BUSY.

Has Collected Large Number of License and Other Taxes Thus Far.

"This has been a happy New Year, as well as a most satisfactory one for me," remarked City Tax Collector T. B. Ellis Tuesday, as he sat in a comfortable chair, with his feet under his desk, and handled a large number of checks and bills. "Collections have been remarkably good, and when collections are good I always feel happy."

Collector Ellis stated that his collections, both for license taxes and real and personal taxes, have been greater this season than for the same time at any previous year, and that property owners and business men as a rule were paying with less reluctance than in former years. This is evidence that the country and people are more prosperous than ever, for if a person is enjoying prosperity he does not mind so much the burden of taxes.

ALABAMA COTTON GROWERS

Will Meet in Montgomery on Wednesday, Jan. 2.

Montgomery, Ala., Jan. 2.—The Alabama division of the Southern Cotton association will convene in this city in annual session on Wednesday, Jan. 2, 1907. It is expected that at least 200 delegates will be in attendance, representatives from nearly every county in the state.

President Charles L. Gay, of the Montgomery county division, has issued a circular to all the members of his division urging their attendance upon the meeting and particularly stressing the importance of a large out pouring of delegates to consider the matters that are to be brought into prominence at the session.

Of special interest during the session will be the annual election of state officers, the election of delegates to the national convention which is to be held in Birmingham Jan. 17-19, and the election of three members of the national executive committee. W. F. Vandiver, of Montgomery, one of the members of this last committee, announced some time ago that he would not allow his name to go before the body for re-election, but in view of the fact that many appeals have been made to him to withhold his decision, a decided answer has not as yet been given.

This session of the farmers will be the third annual convention of the planters. Many important matters are up for consideration, some of the principal of which will be the discussion of the tag tax bill.

RUN OVER BY TRAIN MET INSTANT DEATH

Fatal Accident to Well Known Negro Character.

MAN WAS NEARLY BLIND

Supposed He Was Walking Along Track and Did Not Hear Train. Definite Information Meagre, But That He Was Killed is a Fact.

From Wednesday's Daily Sun.

An old colored man whose back has been bended by the burden of time and who has been rendered almost blind by the accumulation of years, who had been largely weakened physically from the hardships endured through the long years of his existence, was run down by a train of the Seaboard Air Line Tuesday afternoon and killed.

Despite the fact that every effort has been made to obtain the particulars, it seems that no one knew anything definite about the accident except that it happened, and that the old man, known all over the city for years as "Uncle Green," was dead from the result.

"Uncle Green" has been a familiar figure on the streets of Gainesville for many years. Even a little child will recall his bended, crippled form as he trod along the thoroughfares, always polite, always affable, always possessed of that originality which characterizes the negro of ante-bellum days. He was an object of interest and pity alike, and many a "lift" has the old man received from those who felt kindly towards him. His only avocation seemed to be that of a wood sawyer, and that he has followed for years. He enjoyed a regular trade throughout the city which kept him engaged when he was able to work, with the result that, even in his advanced age, he was a creature of good fortune as far as sustenance was concerned.

But "Uncle Green" is gone forever. He has passed over the river, where he will not be compelled to labor longer, and where he will bloom in his youth again, and forever, and where hardships are not known.

Justice Colman, as coroner ex-officio, will probably empanel a jury today when an inquest will be held.

Inquest Was Unnecessary.

After investigating the particulars in the accidental killing of "Uncle Green," the aged colored man who was run down and killed by a train of the Seaboard Air Line on Tuesday afternoon, Justice Colman decided that an inquest was unnecessary.

The particulars of this accident are meager—in fact, there are no particulars, since no eye witnesses can be found.

Infant Weighed 17 Pounds.

Neligh, Neb., Jan. 2.—A girl baby was born to Mr. and Mrs. E. A. Keeler, of this place, which is considered a record-breaker, even for Nebraska. The child, which is the fifteenth born to Mrs. Keeler, weighed at birth 17 pounds, measured 26 inches from head to foot, 18 inches around the chest and 21 inches around the shoulders. The baby is healthy, is growing larger and stronger every day, and aside from its unusual size, differs in nowise from the average baby.

Rumors Are Denied.

Paris, Jan. 2.—W. E. Corey president of the United States Steel corporation, has arrived here. Any statement that he is to be married to Miss Mabelle Gilman in the immediate future or during his present visit to Europe is untrue.

CHOPPED CHIEF WITH HATCHET

Drunken Man Resists Arrest and then Wounds Officer.

Rome, Ga., Jan. 2.—Monday night about 7 o'clock, a call was sent into the police headquarters from the store of the Floyd cotton mills, for an officer to come around and arrest a disorderly man.

An officer was sent, and found that Bud Mooney, an employee of the cotton mills, had been creating a "rough house" generally. The officer went down to Mooney's house, on Railroad street, to arrest him, but was unable to do so, on account of the fierce fight he put up. The officer asked Mooney's son-in-law to assist him, but Lecroy failed to respond. He stated afterwards that the reason he didn't do so was because he was afraid of Mooney.

Officer Dempsey called up the chief of police and asked for assistance. The chief and Officer O. Z. Cooper responded. All three officers then went again to Mooney's house and tried to effect an entrance. While they were trying to get in, Mooney suddenly opened the door and struck Chief Wimpee on the head with a hatchet three times, inflicting several wounds. The chief struck Mooney several times with his pistol on the head badly wounding him. He states that he would have shot Mooney, but deferred from doing so on account of the presence of the women, Mooney's wife and daughters being in the room.

Mooney was then arrested and carried to the police station.

Charged with Cattle Stealing.

Richmond, Ky., Jan. 2.—Hisle Noland, a negro, is in jail here charged with cattle stealing. It is alleged that the negro stole several head of fine export cattle from Dr. R. C. Combs and sold them to Dudley Pearsons. The cattle were found on the farm of Pearsons, who said he had purchased them from the negro.

State of Tennessee Enjoined.

Nashville, Tenn., Jan. 2.—The injunction granted John D. Fletcher and Hayden Dodd here, enjoining the State of Tennessee from purchasing 11,000 acres of coal land in the Cumberland mountains has been dissolved by chancellor Allison. This, of course, throws the case out of court.

J. M. Pfeiffer, one of the oldest citizens and business men of Pensacola, is dead. He had been a member of the German Lutheran church for twenty years.

Should Senator Mallory again be a candidate for the United States Senate the people of Florida would be derelict in their obligations to a faithful public servant if they refused him re-election. There are so few men of his stamp in the highest lawmaking branch of the Nation that his defeat would be a public calamity.

With a prophetic look forward, James J. Hill says: "By the year 1925 there will be in the United States 125,000,000 people, and by the middle of this century, within the lifetime of thousands now living, our population will be more than 200,000,000. Where are these people to find profitable occupation? How are they to obtain the necessaries of life?

According to William E. Curtis, President Roosevelt's ambition is to occupy a seat in the United States Senate from the State of New York after the expiration of his presidential term, following a trip around the world. He is said to make no secret to his desires in this direction. Apropos this there is talk in Washington of making ex-Presidents members of the Senate as representatives of the country at large.

If as many people attend the Southern Cotton Association, which meets in Birmingham on January 17, as were at the New Orleans meeting last year, $5,000 alone will be saved the delegates in railroad fare. This point is one of the strongest used by the committee in landing the convention. In addition to the money made the delegates will save considerable time both on their trip to and from Birmingham. Three years ago, when the first convention of the Cotton Association was held there were only 700 people present. At the New Orleans meeting last January there were 4,200. According to the rate of increase the Birmingham meeting should be attended by 6,000 people.

Major Wiley G. Toomer, one of Jacksonville's leading business men and a veteran of the Civil war, died Monday morning, December 31st. He was stricken with paralysis last Friday, which caused his death. Major Toomer took the field with his company, the Mobile, Ala., cadets, the first year of the war near Norfolk, Va., and witnessed the famous battle between the Merrimac and the Monitor. He participated in the battles of Drewry's Bluff, Seven Pines, Fair Oaks, Seven Days' Battle before Richmond and the battle of Chancellorsville, where he was wounded and fell into the hands of the federals and was taken to the Lincoln General hospital at Washington, D. C. He was later exchanged and promoted to captain for meritorious service. He was one of the first to take the field in defense of the South and one of the last to leave it, his last engagement being the battle of Bentonville. Major Toomer came to Florida in 1885 and had served the city of Jacksonville as a member of the board of public works and president of the council. For several years he has been secretary and treasurer of the Wilson & Toomer Fertilizer Company. He was 67 years of age.

MINERAL PRODUCTION OF THE UNITED STATES BY STATES.

A new feature of the 1905 number of the volume, "Mineral Resources of the United States," brought out annually by the United States Geological Survey, is a series of tables, compiled by Mr. Wm Taylor Thom, which shows the value by States of the mineral products of the country.

These products so listed include both certain raw materials and also certain derivative materials in their first marketable condition, which do not appear in the table of mineral products of the United States as a whole. For example, both pig iron and iron ores are included as important products entering into the commerce of certain States, and in like manner are included both pig lead and lead paints; both clay products and raw clay; both coal and its immediate derivatives, coke, gas coke, illuminating gas, ammonium sulphate, and coal tar; bauxite and aluminum, and also alum and aluminum sulphate. These derivatives and raw materials are here given, regardless of the consequent duplication of values, in response to a constant demand for this information thus arranged by States.

Study of these tables will afford most people more than one surprise. For example, we think of Colorado and California as our most representative mineral States and yet, the actual value of Illinois' mineral products was far greater than that of either Colorado or California last year; more than double, in fact, the value of California's output, for although Illinois has neither silver nor gold it produces great quantities of cement, clay, coal, pig iron, stone and zinc, which are worth much silver and gold in the world's markets.

The sums total of these State outputs for the year run as follows:

Alabama	$ 53,585,288

The chapter of "Mineral Resources," entitled "Summary of the Mineral Production of the United States in 1905," is issued separately, in pamphlet form. Those desirous of knowing the details of State production should make request for this summary from The Director of the United States Geological Survey, Washington, D. C.

Rockefeller, Jr., one would think, must be in training for President, for he preaches every Sunday to the public on morals, religion and the strenuous life. His latest effort was on the subject of wives, and he advised unmarried men not to "marry a woman who is not in full sympathy with your ideals. Don't marry a woman simply because she is pretty." He also declared it was a huge mistake to pick out wives only for their money. He did not tackle the subject of race suicide, but that interesting subject is hardly fit for a Sunday [illegible]

A LIBEL ON THE COUNTY.

"Without any intention to try to fix the blame on any particular person, the fact remains that the last term of the court had no deterrent effect upon criminals; on the contrary, the large number of important criminal cases left undisposed of upon the docket was an invitation to others to commit similar crimes, with the belief that they would similarly go unpunished; over twenty cases, we learn, are now on the docket, covering such serious crimes as Laceny, Forgery, Perjury, Embezzlement, Bribery, Robbery and Murder, and the jail is full of persons charged with crime unindicted. What can we look for when as many as twenty thieves, robbers and murderers are left untried? What are courts for but to try property rights and parties indicted for crime? It not done at the regular term, it should be done at a special one."—Gainesville Elevator, Dec. 20.

The Sun did not intend to refer to the above libel upon Alachua county, but since it has been copied in some of the State papers we feel it our duty to show the untruthfulness of statements contained therein. The fact is that when the editor of The Elevator penned the article there were only two prisoners in the county jail, towit: James Henry and Sam Hall, both negroes charged with murder. The former was convicted at the spring term of the circuit court, but his case was appealed to the supreme court; and the case of Sam Hall was continued at the last term of court upon satisfactory showing to the judge that he had not then had time to secure the presence of witnesses whose evidence was material to the defense. There are at the present time only four prisoners in the county jail, the two besides those referred to being also negroes, John Smith and Ed Akin, charged with murder, who were committed on December 20th—after The Elevator man wrote his article.

The statement of The Elevator that "the jail is full of persons charged with crime unindicted," is therefore proven untrue by the sheriff's docket.

At the last term of the circuit court, presided over by Judge Bascom Palmer of Lake City, thirty-eight criminal cases were tried and sentence passed, and we have not heard any complaint from law-abiding people of the county as to the lightness of sentence in a single case. On the contrary, in not a few instances sentences imposed were regarded by many as too severe. True, twenty cases were continued, but only one of these was for murder, and in each case the court required satisfactory showing on the part of defendants, or the prosecuting attorney, before continuance was granted, nineteen of the twenty having given bond.

The fall term of the circuit court of Alachua county was noted for the dispatch with which business was transacted and justice meted out to lawbreakers, yet The Elevator would have people believe that it "had no deterrent effect upon criminals," and that "the jail is full of persons charged with crime unindicted."

Nice article, indeed, to appear in the Christmas number of a paper pretending to be published for the best interests of Gainesville and Alachua county. There is no excuse whatever for the publication of such misstatements. The records were of easy access, and the sheriff and clerk of the court are as accommodating officials as are to be found in any State of the Union.

Owing to the extensive turpentine and phosphate industries in Alachua county, in which all classes of labor is employed, crime is probably more prevalent, in proportion to population, especially among the negroes, than in counties where these industries are not so extensively engaged in, but among the whites there is not a more law-abiding people on the face of the earth than those who live in Alachua county.

Those papers which gave publicity to The Elevator article, owe it to the people of Alachua county to make correction of the same.

PROTECTING HOME MARKETS

There is a meat famine in Germany, brought about by the new tariff law, which was enacted for the benefit of the land owners. Herr Weimer, a radical member of the Reichstag, cited the wholesale price of meat in Germany as being 22½ cents a pound, while in Belgium it was 14 cents, in Spain 13½ cents, in France 13 cents, in England 13½ cents, in the United States 13 cents, and in Russia 9½ [illegible] The Minister of the Interior [illegible] government to reduce or abolish the duties on cattle or meat, and it was unadvisable to import French or Italian live stock, because of the foot and mouth disease. He also said:

"A system of foreign meat inspection was proposed in order to assure the importation of killed meat in good condition. It was also hoped that a reduction of the tariff on the inland transport of fresh meat would improve the situation, but the government declined to make any reduction of the duties on cattle or meat, or to abolish any of the tariffs determined by commercial treaties with various states. The minister, however, expressed the hope that the home production, which already supplied 96 per cent of the population, would expand under the protective tariff."

It is of importance to note that not a word was said about making any concessions for the importation of American meat. In consequence of the protection wall raised by our tariff against German products it is evidently intended to put in force the retaliative tariff against imports from the United States. Thus the farmers of this country will suffer a loss of a large and growing market for their products and the people of Germany be plundered for the benefit of the land owners under the guise of protecting the home market of both countries.

No wonder there is unrest in Germany and a revolt against the government by the representatives of the German people, and a new election has been called. The people of the United States are also suffering from high prices of meat and other commodities, and there is a growing demand for revision of the tariff that shelters trusts, but our more patient people have not revolted against their standpat government, except in spots. There are, however, strong indications that the next national campaign will result in a protest against the tariff that fosters trusts, and the overthrow of the standpatters.

AN ENCHANTING SCENE.

The Dowling Park correspondent of The Live Oak Democrat writes as follows of a recent scene on the banks of the beautiful Suwannee river:

"Thursday morning 'something new under the sun,' for Florida, was revealed to those who, from the east bluff of the Suwannee river at Dowling Park, saw the early sun's rays illumine a scene of enchantment. On the west side was the sparkle and glisten of hoar frost on every leaf and twig from the river edge up, bank upon bank, to the top of the lofty forest trees. Looking down the river bed upon the swift flowing waters of the Suwannee there appeared a bottomless chasm filled with thousands of vaporous clouds rolling over with no apparent cause or purpose except to keep within its warm bluff-sheltered bed. But the vision and illusion was of brief duration. As Old Glory rose higher from his bed in the east the sparkling frost dissolved into mist and the mist on the water disappeared, but each had served its purpose to draw man out from thoughts of self and the sordid things of life to the beauties of nature, the goodness and the infinite power and glory of the God of creation."

General Marcus P. Miller, U. S. A., died at Fort Barrancas, Pensacola, on the 29th of December, aged seventy-one years. He served with honor in a number of Indian campaigns from 1866 to 1878, and also in the Philippines. General Miller was a Mississippian by birth and graduated in 1858 from the United States Military Academy. He served in the army of the Potomac during the Civil war, and so distinguished was his record that he was brevetted Major and later Lieutenant-Colonel. During his Indian service he was promoted to Brevet-Colonel, and had command in the Philippines as Quarter-General of the regular army. He was laid to rest in the National cemetery. General Miller leaves two sons, one of whom are in the service, one of whom is Captain Lawrence P. Miller, stationed at Fort Barrancas.

Fast Mail From Atlanta Strikes Loaded Freight Cars.

Charlotte, N. C., Jan. 1.—The Seaboard Air Line's fast mail No. 32, northbound, from Atlanta to Richmond, crashed into a string of loaded freight cars at Peachland, a flag station, 19 miles east of Monroe, partially wrecking the passenger train, and killing Engineer S. E. Maxwell, of Raleigh.

Running 50 miles an hour, Engineer Maxwell sighted the freight train as he rounded the curve near Peachland, and with concern only for the passengers, whose lives were in his care, he applied the emergency brakes in an effort to moderate the impending crash. The speed was reduced to 10 miles an hour when the train struck the car, and the fire man jumped without being hurt.

Maxwell stuck to his post, was caught between his engine and tender, and slowly roasted to death in view of the rescuers. Helplessly pinned in an upright position with both feet in the firebox, the brave man lived four hours, fully conscious, his last words being a message to his wife and child at Raleigh. No one else was hurt.

Safe Blowers Win a Fortune.

Mobile, Ala., Jan. 1.—Diamonds and jewelry estimated in value at between $10,000 and $12,000, and $200 in money were taken from the vaults of the Sandoz Jewelry company, on Dauphin street, near Royal, some time during Saturday night, by safe blowers, who successfully opened the iron safe of the company with a drill. The greater part of the booty obtained was diamonds. The robbery of the store was not discovered until late in the afternoon. A sledge hammer, brace and a small electric lantern were found in the store. It is regarded as the most daring robbery ever committed in this city.

MACHINE GUNS DISAPPEAR.

Firearms of Heavy Caliber and Small Arms Smuggled into Cuba.

Havana, Jan. 1.—The statement is made here that several thousand rifles and machine guns reported to have been landed recently in Pinar Del Rio province and midden in the woods near Mariel have been as secretly taken away. The recent movement of troops and police, which was considered mysterious in the light of Governor Magoon's statement that there was no fear of a rising in Cuba, is explained by this announcement, as it is now known that the movement was in the nature of a search for these arms. The possibility of a clash between Cuban and American troops is considered remote. Just who is responsible for the shipment of the arms into Cuba is not known. It is feared that the arms are now in the possession of the negroes in the province.

THE ENDEL BLOCK HAS BEEN SOLD

Was Purchased by T. W. Shands at a Cost of $22,500.

THE BUILDING IS A FINE ONE

Substantially Constructed of Brick, Two Stories High, and Modernly Equipped for Stores and Office Purposes—Possession at Once.

Another important real estate deal, which is one of the most extensive and important for the year just closed, was consummated when T. W. Shands made himself a New Year's present of the big Endel Block, situated on the corner of Liberty and West Main streets. The property was purchased from Marcus Endel, who has been its owner ever since it was erected, in 1885.

This building has a frontage of seventy feet on Liberty and one hundred feet on West Main street, including the small brick building immediately in the rear of the block. It is substantially constructed of brick, two stories, with upper floor fitted for office rooms. On the lower floor is an immense store room, so long occupied by Mr. Endel as a clothing and furnishing shore, and now tenanted by Phifer & Morris for the same purpose.

The sale of this magnificent property by Mr. Endel came as somewhat of a surprise to Mr. Endel's friends here, but inasmuch as he is now making his home in Jacksonville he decided to dispose of the same, since he was made a flat offer of $22,500 by Mr. Shands.

Mr. Shands' friends are congratulating him upon his new possession.

There will be no change in the tenants of the building for some time at least.

Mrs. Pitts' New Year Tree.

Mrs. T. W. Pitts, at her home on W. McCormick street, entertained in a clever manner her class in elocution and physical culture Tuesday afternoon, the feature being a New Year tree.

There were about fifteen present, and the little folks enjoyed themselves in the rear parlor and dining-room for an hour, the principal feature of this part of the program being the dancing of the Virginia reel, which created lots of fun. The guests were then ushered into the front parlor, where a bountiful holly tree, illuminated by candles, was seen. This was the signal for an exclamation of delight, as it was one of the handsomest trees seen here this season.

After presents had been generously distributed and delicious refreshments served the guests departed, wishing Mrs. Pitts and her charming little daughter, Miss Curtis, many succeeding happy new years.

A Delightful Occasion.

The smaller children of the Presbyterian Sabbath school were royally entertained at the home of Mrs. Geo. S. Merchant, West Liberty street, Tuesday afternoon, as a reward of their faithfulness for the year 1906.

There was a large number present, and the afternoon was passed in juvenile games, all of which were enjoyed in that manner in which only a child can enjoy.

During the afternoon an abundance of delicious fruits, nuts, candies, etc., were distributed, and the little folks returned to their respective homes more delighted than ever that they were a part of the Presbyterian Sabbath school.

OPEN PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients *in plain English*, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famed medicine is advised. No other medicine for women has any such *professional* endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's *free* for the asking.

JOTTINGS FROM JUDSON.

Cold Wave Destroyed Gardens—Two Marriages—Other Notes.

Judson, Dec. 31.—The holidays are over, and passed quietly. Everything went off nicely—there were no "drunks" and no rows.

We had two weddings this week. Eldin Adams and Miss Mamie Coleman were married on the 23d inst., while O. S. Stalvey and Miss Winnie Small became man and wife on the 24th.

The late cold wave played havoc with the gardens in this section, and also froze what oranges were left on the trees. The thermometer went down to 19 on the mornings of the 25th, 26th and 27th.

Mrs. R. S. Tucker is spending this week with relatives at Newberry and Jonesville.

Several families have been moving around recently. A. B. Moore has gone to Trenton, and John Palmer has moved onto the place Mr. Moore left.

Frank Stockman and Hardy Lew of Double Sink passed through here Saturday en route to Trenton.

Judso Lodge No. 11, F. & A. M., met Thursday and installed officers for the ensuing term as follows: J. D. Knight, Double Sink, W. M.; Jacob F. Dupree, J. W.; Rev. Jas. K. Sheffield, chaplain; J. W. Moore, S. S.; W. J. Sanchez, J. S. The other officers were re-elected, and it was not necessary for them to be reinstalled.

Mr. and Mrs. A. C. Beauchamp of Bowling Green have been here this week visiting their children, J. R. Beauchamp, Mrs. Jerry Arrington and Mrs. Hardy of Chiefland.

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder troubles for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." J. W. McCollum & Co.

There was a happy little "social circle" at the home of Mr. and Mrs. R. H. Schafer last night, in the nature of a few friends, who gathered with the Schafer family to watch the old year out and the new year in. Of course nice refreshments had been prepared by Mrs. Schafer, which were enjoyed. At the midnight hour, when the party had bid the new year welcome, the guests and the Schafer family retired.

General W. H. Seebring of Jacksonville was in town yesterday and made this office a welcome visit. He has just completed a tour of South Florida in the interest of a commission house for which he is solicitor, and reports little if any damage to the oranges remaining on the trees. The home of S. J. Burnett, which was partially destroyed by fire a few weeks ago and which has been in the process of repair, is nearly completed and will be ready for occupancy in a few days. It will be remembered that the home was severely damaged, the roof having burned off and the walls badly charred. Captain A. Paul, special agent of the United States land office, has returned from points in West Florida and Southern Alabama, where he has been for some time on official business. Captain Paul considers West Florida a charming country, and wonders why it is that some parts of that fertile section are not more thickly settled. He notes, however, a steady increase, and every newcomer with whom he has talked seems perfectly satisfied.
